

# 360° Virtual Field Trips

*INSPIRING NEW DEPTHS*

Experience the far reaches of the globe in a vibrant 360° view as you and your students dive beneath the waves, hike through distant forests, and become immersed in other cultures without ever leaving the classroom.

## Each 360° Education Excursion is:

- A journey to a unique geographic region, exploring science and culture
- Complete with 5E lesson plans, teacher guides, and assessments
- Device-agnostic, compatible with existing technology
- Created by marine scientists and educators
- Aligned to the Next Generation Science Standards
- Designed for NGSS Three-Dimensional Learning
